Introduction

\$ARMY OG is a community-driven token on the XRPL (XRP Ledger), designed to empower, educate, and innovate within the ecosystem. Born from the passion of a dedicated community, \$ARMY OG seeks to amplify the potential of XRPL through strategic collaboration, cutting-edge technology, and a robust network of supporters. Our mission is clear: unite, educate, and build a thriving digital community on the XRPL.

The Journey of \$ARMY OG

From a Troubled Past to a Bright Future

The original \$ARMY token was launched on October 20, 2024, on the xMagnetic platform by an unknown individual. Initially, the community consisted of around 20 people, each holding multiple wallets to distribute the supply among themselves. On November 7, 2024, these wallets transferred their tokens to a single wallet (Rug-pull wallet: rDnTd5txotcccPXD-kTLXyRV7Eg56LCgVLcq) and sold them off, causing the market cap to drop from \$3.5M to <\$500k.

After stealing funds from this sell-off, the group created a new token on November 10, 2024, on the FirstLedger platform (Funding wallet: rHdkTGymZL6WQbrrsxPnpeTqhcF8S44kR1) with the same ticker symbol (\$ARMY). They attempted to rebrand and mislead the community. However, the original \$ARMY token and its mission continued, staying true to the same issuer address (r319FqohpKLWjtcV2mosyC5sy125fDk4uH).

Despite this setback, the \$ARMY OG early investors remained resilient. Committed to the original vision, \$ARMY OG was reborn—ready to embark on a bold mission across XRPL's boundless frontier.
